

Do you need aviation or directional windsocks to easily understand wind speed and direction? Are you sick of buying inferior quality windsocks that don't work well or wear out quickly?

For over 50 years A & B Canvas Australia has been manufacturing quality windsocks for airfield operators, aviators, mine site managers and plant managers.

Your windsock needs to function at optimal performance when you need it the most.

We take safety seriously, and that's why we use only the best materials and offer a performance guarantee with every windsock we sell.

We're the only windsocks manufacturer in Australia to offer a free repair or replacement if our windsock breaks down due to high UV. Choose from various colours and sizes to suit your needs.

Visit xxx.com now or email us at xxx@xxx.com to learn more and buy the best quality windsocks that last.
